

Review for Final – Fall 2011

Jeff Offutt

<http://www.cs.gmu.edu/~offutt/>

SWE 432

**Design and Implementation of
Software for the Web**

Parameters

- 4:30 – 7:15
- Same room
- Closed book / closed notes / closed neighbor
- Comprehensive
- You may take breaks (not all together)
- Spread out – keep a seat between yourselves

Coverage

- Usability overview (N-Ch 1)
- Web users (N-Ch 2, 3)
- Usability problems and Search (N-Ch 4, 5)
- Website navigation (N-Ch 6)
- Readability & writing (N-Ch , 8)
- Javascript (S-Ch 3, 4, 6)
- PHP (S-Ch 9)
- Ajax (S-Ch 10)
- J2EE (S-Ch 11.1-11.6)
- XML & JDBC (S-Ch 7.1-7, 13.1-6)
- Security

Preparing and Format

- Re-read the text and handouts
- Study the homework assignments
- Redo the quizzes
- *Get a good night's sleep*

- Lots of different kinds of questions
 - Short answer
 - T / F
 - M / C
 - Single answer questions
 - Problem solving

4

Grades

- I will post averages on blackboard by Monday
 - Quiz (after dropping three)
 - Homework
 - Participation
- I will post final exam scores on blackboard after grades are turned in
- As in all classes, you have the right to review your final exam
 - But probably not practical until January

5

Final Grades

- 5% participation, 30% quizzes, 35% homeworks, 30% final
 - Lowest three quiz grades dropped
- Unbiased grading – compute and sort:
 - ≥ 98 : A+ – Probably only one A+ per class
 - > 93 : A
 - > 90 : A-
 - > 86 : B+
 - > 80 : B
 - > 75 : B-
 - > 65 : C
- I will “slide the line” down to an appropriate “break point”
